

Mr. Sant Sanganeria

In Hindu College's history, Mr. Sant Sanganeria's name shines brightly. Shri Sant Sanganeria is the Founder Chairman and Managing Director of Ultra International Limited, and the Managing Trustee of the Sanganeria Foundation for Health and Education, a non-profit organization. An eminent visionary and

ardent advocate of education, Mr. Sanganeria's unwavering commitment to empowering students, his visionary approach to philanthropy, coupled with a steadfast commitment to the values of education, has left an enduring legacy that inspires and shapes the college's future.

SANGANERIA AUDITORIUM

The auditorium serves as a central hub for the vibrant academic and extracurricular life that Hindu College is renowned for. It plays a crucial role in the overall educational and cultural experience of students, faculty, and the larger college community. The auditorium serves as a venue for hosting academic events, renowned scholars, experts, and industry professionals are invited to

share their knowledge and insights with students and faculty, enhancing the learning experience and exposing them to diverse perspectives.

The Hindu College auditorium has been a historic structure in itself, and features in the memories and reminiscences of hundreds of leaders, civil servants, and public intellectuals, who have experienced the beginnings of their careers on its stage. After several decades since its inception in 1953, the College has been able to undertake the renovation project of its auditorium with the aid of **Shri Sant Sanganeria**, who serves as the visionary Founder Chairman & Managing Director of Ultra International Limited. He has played a crucial part in the transformation of the College auditorium into a cutting-edge

facility of international standards, catering exclusively to the Hindu College community.

Currently, the auditorium provides a platform for students to showcase their talents in music,

dance, drama, and other performing arts. This renovated auditorium offers air-conditioning, acoustically designed interiors, comfortable seating, and boasts of exceptional green rooms and a magnificent stage that can rival modern movie theaters.

The **green-room** of the college auditorium is a vital behind-the-scenes space that caters to the needs of performers and speakers, contributing to the overall success and smooth execution of events. It offers a private and organized area for preparation, relaxation, and interaction, ensuring that participants feel supported and at their best when they take the stage.

The **balcony** of the college auditorium offers a panoramic view of the stage and seating area below. Perched high above the main floor, it provides a unique vantage point for spectators to observe performances, presentations, and events taking place in the

auditorium. The Sanganeria Auditorium can accommodate a total of 725 people, with 602 seats in the main hall and 123 seats in the balcony.

SANGANERIA SCIENCE BLOCK

The Sanganeria Science Block holds immense importance within the academic and research ecosystem of the college. Donated by our cherished benefactor, **Shri Sant Sanganeria**, this block consists of four wings, each containing a lecture theatre and a state-of-the-art laboratory equipped with modern and advanced facilities.

To honour notable Indian scientific figures, each wing has been named after a renowned luminary. The Chemistry Wing is dedicated to Prafulla Chandra Ray, known as the Father of Chemical Sciences in India. The Physics Wing is named after C V Raman, the first Indian Nobel Laureate in Physics. The Botany Wing is named after Janaki Ammal, the first Indian woman to obtain a doctorate in Botany.

Lastly, the Zoology Wing is named after Har Gobind Khorana, a Nobel Laureate in Physiology. The much-needed classrooms and laboratories that the Sanganeria Science Block offers are not

only a welcome addition to the historic old building of the College, but are also exceptional facilities which inspire and encourage students and faculty members to engage in meaningful scientific research that can benefit society.

FACULTY BLOCK

The development of the Faculty Block at Hindu College, generously funded by **Shri Sant Sanganeria**, is another substantial and welcome project. This block is dedicated to accommodating the faculty, with its design carefully tailored to meet their

needs and foster a congenial and supportive teaching and working environment. The architectural style of the building is modern and visually appealing, with a strong emphasis on abundant natural light and ventilation. Once finished, the faculty block is expected to enhance the comfort of the teachers' workspace, providing them with an improved and pleasant setting for their work.

FRAGRANCE AND FLAVOURS LAB

The Fragrance and Flavours Lab at Hindu College was established in collaboration with Ultra International Ltd., the leading fragrance industry engaged in the business of Fragrance, Flavors and Essential Oils and emphasizes on quality,

innovation and creativity. The lab is a fruition of the generosity and contributions of our esteemed benefactor, Shri Sant Sanganeria Ji.

Thanks to this lab, Hindu College was instrumental in initiating a course on perfumery entitled “Fragrances and Flavors: A Chemist’s Perspective” . This course is now being studied by the undergraduate students of various science streams as a generic elective. The lab is going to be instrumental in the development of environmentally friendly perfumes using sustainable ingredients, and the development of synthetic alternatives of the endangered natural perfumery components using the green chemistry principles to contribute towards “Sustainable Perfumery”. The lab contains advanced instruments such as a GC-MS (Gas Chromatography Mass Spectrometer), a GC (Gas Chromatograph), as well as a Sustainability Fragrance Kit.
