

# Legal Awareness, Gender and Media

This course would explore the potential of law as a tool of political, social and even economic power mechanisms. There is a need to make legal education a Mandatory Tool for all, especially marginalised sections. This course proposes to offer a transformative learning opportunity and experience for students to face real world situations in a legally informed and skilled manner. Basically, this course aims to:

- Make students aware of gender justice and legal frameworks (For eg: Vishakha guidelines)
- Understand about diversity and inclusive practices in workplaces
- Provide information and methods to ensure privacy and dignity to different gender variants in the cyber world as well as everyday life situations.
